Preface

The papers included in this issue of *ECS Transactions* were originally presented in the symposium “G3 - Tutorials in Electrochemical Technology: Impedance Spectroscopy,” held during the 213th meeting of The Electrochemical Society, in Phoenix, Arizona from May 18 to 23, 2008. This symposium is part of a recurring tutorial series sponsored by the Industrial Electrochemistry and Electrochemical Engineering Division of The Electrochemical Society.
# Table of Contents

*Preface*  
iii

Impedance of Porous Electrodes  
A. Lasia  
1

Impedance of a Disk Electrode with Reactions Involving an Adsorbed Intermediate: Local and Global Analysis  
S. Wu, M. E. Orazem, V. Vivier and B. Tribollet  
19

Predicting the Long-term Performance of Coating Systems from Short-term EIS Testing  
S. R. Taylor and C. N. Hunter  
43

The Impedance of an Electrode Coated by a Film of Distributed Local Thickness and its Relationship with Constant Phase Elements (CPE)  
S. Cattarin, N. Comisso, M. Musiani and B. Tribollet  
55

Electrochemical Impedance Spectroscopy for Characterization of Electrochemical Sensors and Biosensors  
C. Brett  
67

Effect of Large Perturbation Amplitudes on the Impedance Response of an Electrochemical System  
B. Hirschorn, I. Ibrahim, M. E. Orazem, H. Takenouti and B. Tribollet  
81

Impedance Data Masquerading as Unusual Circuit Elements: Instrumentation Artifacts  
P. Vanýsek  
101

Characterization of Oxide Films by Electrochemical Impedance  
I. Frateur  
115

Frontiers in Application of Impedance Diagnostics to H2-Fed Polymer Electrolyte Fuel Cells  
M. Mathias, D. Baker, J. Zhang, Y. Liu and W. Gu  
129
Guidelines for Evaluation of Error Structure for Impedance Response of Polymer Electrolyte Membrane (PEM) Fuel Cells

S. Roy and M. E. Orazem

* invited paper
Facts about ECS

The Electrochemical Society (ECS) is an international, nonprofit, scientific, educational organization founded for the advancement of the theory and practice of electrochemistry, electrothermics, electronics, and allied subjects. The Society was founded in Philadelphia in 1902 and incorporated in 1930. There are currently over 7,000 scientists and engineers from more than 70 countries who hold individual membership; the Society is also supported by more than 100 corporations through Corporate Memberships.

The technical activities of the Society are carried on by Divisions. Sections of the Society have been organized in a number of cities and regions. Major international meetings of the Society are held in the spring and fall of each year. At these meetings, the Divisions and Groups hold general sessions and sponsor symposia on specialized subjects.

The Society has an active publications program that includes the following:

Journal of The Electrochemical Society — JES is the peer-reviewed leader in the field of electrochemical and solid-state science and technology. Articles are posted online as soon as they become available for publication. This archival journal is also available in a paper edition, published monthly following electronic publication.

Electrochemical and Solid-State Letters — ESL is the first and only rapid-publication electronic journal covering the same technical areas as JES. Articles are posted online as soon as they become available for publication. This peer-reviewed, archival journal is also available in a paper edition, published monthly following electronic publication. It is a joint publication of ECS and the IEEE Electron Devices Society.

Interface — Interface is ECS’s quarterly news magazine. It provides a forum for the lively exchange of ideas and news among members of ECS and the international scientific community at large. Published online (with free access to all) and in paper, issues highlight special features on the state of electrochemical and solid-state science and technology. The paper edition is automatically sent to all ECS members.

Meeting Abstracts (formerly Extended Abstracts) — Abstracts of the technical papers presented at the spring and fall meetings of the Society are published on CD-ROM.

ECS Transactions — This online database provides access to full-text articles presented at ECS and ECS-sponsored meetings. Content is available through individual articles, or as collections of articles representing entire symposia.

Monograph Volumes — The Society sponsors the publication of hardbound monograph volumes, which provide authoritative accounts of specific topics in electrochemistry, solid-state science, and related disciplines.

For more information on these and other Society activities, visit the ECS website:
