UNIVERSITY OF FLORIDA COLLEGE OF ENGINEERING
UNDERGRADUATE RESEARCH APPLICATION

Note: All undergraduate students pursuing research with a faculty member at the University of Florida is required to enroll in 0-3 credit hours of Engineering Undergraduate Research (EGN 4912) under either the section number of the student's degree program or of the College of Engineering (if the student is performing research with a faculty member outside of the College of Engineering).

Once this application is completed, the student should present it to her/his academic advisor prior to enrolling in EGN 4912.

Student Information (to be completed by the student applicant):

Date: ____________________  Semester/Year of Enrollment: ______________

Will the student’s project involve export-controlled research? ___Yes   ___No

Will the student’s research involve with an infectious agent or clinical samples? 
___Yes   ___No

Will the student’s research involve methods or procedures requiring specific safety training? 
___Yes   ___No

If yes, describe specific training that the student will receive prior to performing these activities.

What are your expectations for the student’s attendance in this project (e.g., estimated hours/week in your laboratory, in seminars, group meetings, etc.)?

I approve of the research description submitted by the student applicant. I have read the responsibilities of the research advisor (see next page) and agree to undertake these responsibilities.

**Faculty Advisor’s Signature:** ________________________________________________

I have read the responsibilities of the research advisor (see next page) and agree to undertake these responsibilities. **Mentor’s Signature:** ________________________________
RESPONSIBILITIES OF THE STUDENT

1. Work actively doing research and participating in other related activities for about 3 hours each week for every credit hour enrolled in the course.
2. Keep clear accurate records of your work.
3. Understand how to conduct research in a responsible and ethical manner. Follow the UF Honor Code at all times.
4. Follow all safety protocols and ask questions about safety protocols before performing any procedure about which you are unsure.
5. Ask for assistance when you need it.
6. Keep your faculty research advisor and/or mentor informed of your results.
7. If required, learn to work on a team while also pursuing independent research on your project.
8. Write and submit a research report following the guidelines and expectations of your faculty advisor and/or mentor.
9. Present your research findings in an oral presentation.
10. Strive to go beyond the minimum expectations of preparing a literature review and project plan, performing the research, and writing a final report. Seek out opportunities for oral presentations at a conference, writing and submitting a journal paper of your work, etc.

RESPONSIBILITIES OF THE FACULTY ADVISOR AND STUDENT MENTOR

1. Provide support and supervision of the student (either directly or by referring her/him to someone else, e.g., graduate student or postdoctoral mentor).
2. Meet regularly with the student to review her/his progress and to provide guidance in moving forward in her/his project.
3. Arrange for all safety training that is appropriate for the student to ensure her/his safety in your laboratory.
4. Help the student understand the broader context in which her/his research project fits and understand the basis for methods and procedures used.
5. Encourage to provide a mid-semester evaluation of the student’s performance, accompanied by recommendations for improving performance for the remainder of the semester.
6. Provide feedback and establish deadlines on the student’s
   - literature review
   - project plan
   - final report
7. Assign the student’s final grade.
8. Encourage the student to go beyond the minimum expectations of preparing a literature review and project plan, performing the research, and writing a final report.
