

Elementary Transport Phenomena

ECH 3264 Class Number: 12895

Class Periods: M, W, F, period 8 (3:00 PM - 3:50 PM)

Location: WEIL 0270

Academic Term: Spring 2020

Instructor:

Dr. Sergey Vasenkov

Professor

University of Florida, Chemical Engineering Department

423 ChE Bldg.

Email: svasenkov@che.ufl.edu

Phone: 352-392-0315

Office Hours: each Wednesday between ... and

each Thursday between ...

Supervised Teaching (ST) student:

Mr. Chen You

University of Florida, Chemical Engineering Department

Email: chenyou@ufl.edu

Office hours: each Thursday between TBA

Grader:

Mr.

University of Florida, Chemical Engineering Department

Email:

Course Description

The main goal is to introduce microscopic analysis of energy, momentum and mass transport. Students will learn how to describe changes of energy, momentum and mass within a small region of systems which are relevant for chemical engineering applications. Students will become proficient in making simplifying assumptions, developing mathematical description of transport problems, and finding relationship between different parameters describing transport.

Course Pre-Requisites

ECH 3023, MAP 2302 and MAC 2313

Course Objectives

1. Derive differential equations from basic conservation principles describing heat, mass, and momentum transport
2. Define and utilize Fourier's law and Fick's law
3. Define the characteristics of Newtonian and non-Newtonian fluids
4. Define and explain origin of the quantities (such as heat transfer coefficient, viscosity, and diffusivity) used to describe heat, momentum, and mass transport
5. Use the equations of change to formulate differential equations with proper boundary conditions to describe transport phenomena
6. Solve one-dimensional steady problems of mass, momentum, and heat transport with and without source terms
7. Solve selected multi-dimensional problems of mass, momentum, and heat transport with and without source terms

Professional Component (ABET):

Course objectives (1)-(7) are linked to student outcome 1.

Relation to Program Outcomes (ABET):

Outcome	Coverage
1. identify, formulate and solve complex engineering problems by applying principles of engineering, science, and mathematics	High

Required Textbook

R. B. Bird, W. E. Stewart, E. N. Lightfoot, Transport Phenomena, 2nd Edition, Wiley, 2002

ISBN: 0-470-11539-4

Tentative Course Schedule

Week 1:	Review of selected types of ordinary differential equations and of vector analysis / pages 852, 853, 856, 857, 807-814, 819-822, 825-827
Week 2:	Review of selected types of ordinary differential equations and of vector analysis / pages 852, 853, 856, 857, 807-814, 819-822, 825-827
Week 3:	Thermal conductivity and Fourier's law; temperature distributions determined by shell balances / pages 266-270, 291, 292
Week 4:	Examples of energy transport problems / pages 292-298, 303-310
Week 5:	Introduction to tensor analysis / pages 815-818, 821
Week 6:	Viscosity and Newton's law / pages 11-21
Week 7:	Convective momentum transport; velocity distributions determined by shell balances / pages 34-37, 41, 42
Week 8:	Examples of multi-dimensional momentum transport / pages 42-58
Week 9:	General momentum and mass balances with examples; Newtonian and non-Newtonian fluids / pages 77-80, 83-89, 97-98, 240-243
Week 10:	General momentum and mass balances with examples; Newtonian and non-Newtonian fluids / pages 77-80, 83-89, 97-98, 240-243
Week 11:	Diffusivity and Fick's first law; transport by convection / pages 514-519, 533-537
Week 12:	Concentration distributions determined by shell balances; examples of mass transport; Fick's second law / pages 543-545, 545-560, 585
Week 13:	Concentration distributions determined by shell balances; examples of mass transport; Fick's second law / pages 543-545, 545-560, 585
Week 14:	Introduction to unsteady energy and momentum transport / pages 114-121, 374-378
Week 15:	Heat conduction with a viscous heat source / pages 283-286, 298-300

Attendance Policy, Class Expectations, and Make-Up Policy

Class attendance is strongly recommended. Excused absences are consistent with university policies in the undergraduate catalog (<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>) and require appropriate documentation. Requests for make-up tests will be granted only if appropriate documentation about illness, family emergency or UF-related travel are given to the Instructor.

Exams and Quizzes: There will be 2 exams during the semester and a final exam on the last day of classes. The exams are scheduled for TBA. The final exam is scheduled for 4/29/2020 between 7:30 am and 9:30 am. There will be 4-5 announced quizzes during the semester. Quizzes will be announced at least 1 week in advance. No credit will be given for problems that have a solution but all the work leading to this solution is not shown. Partial credit will be assigned based on the rules that will be consistently applied to all students.

For all quizzes in this class the following rules will be applied: During a quiz you can use the textbook for this class. However, you cannot use homework solutions, lecture notes or any other materials.

Elementary Transport Phenomena

ECH 3264 Spring 2020 Dr. Sergey Vasenkov

For all exams in this class the following rules will be applied: For each exam you can prepare one page with the expressions of your choice. You can use both sides of the page. No other materials are allowed, except for the handouts given by the Instructor for the exam (if any).

- Homework:
1. Homework will be assigned approximately once a week.
 2. Solutions will be posted on the course website.
 3. The homework must be turned in at the beginning of class on the due date.
 4. Late homework will be accepted only with instructor approval. As a rule, there will be a 20% penalty for each day it is late. No late homework accepted after the solutions are posted.
 5. No credit will be given for problems that have a solution but all the work leading to this solution is not shown.
 6. The following format has to be used:
 - a. The student's name should be written on the front page.
 - b. Begin each problem on a new page.
 - c. Write only on one side of a page.
 - d. All pages must be stapled.
 - e. Underline all intermediate answers. Box all final answers.

Evaluation of Grades

Assignment	Total Points	Percentage of Final Grade
Homework Sets (11-12) (at least one set will require using Python)	10 each	0%*
Quizzes (4-5)	10 each	30%*
Exam 1	10	20%
Exam 2	10	20%
Final Exam	10	30%
		100%

* It is expected that each student will have the total score larger than 50% for all homework assignments during the semester. Similarly, the total score larger than 35% is expected for all quizzes during the semester. A failing grade will be assigned to students if the total score for all homework assignments and/or the total score for all quizzes are smaller than 50% and 35%, respectively. In each homework assignment only one randomly selected problem will be graded. Instructor will make the problem selection. The assignment(s) requiring the use of Python will contribute 20% to the total homework credit, while the assignments requiring analytical solutions will contribute the remaining 80%.

Grading Policy

The grades will be curved. Depending on the class performance, B or B+ will correspond to the class average, which will be determined as shown in the Evaluation of Grades section.

More information on UF grading policy may be found at:

<https://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx>

Students Requiring Accommodations

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.ua.ufl.edu/students/>. Students will be notified when the

evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://sccr.dso.ufl.edu/policies/student-honor-code-student-conduct-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor or TAs in this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

Campus Resources:

Health and Wellness

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: <http://www.counseling.ufl.edu/cwc>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Discrimination, Harassment, Assault, or Violence

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the **Office of Title IX Compliance**, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.
