

ECH 4123 Phase and Chemical Equilibria
Spring 2020

Instructor: Spyros A. Svoronos

Office Phone: 352-392-9101 (preferred over e-mail)

Home Phone: 352-378-1342 (only way to reach me during weekends)

E-mail: svoronos@ufl.edu (checked M-F)

E-mails must include a call-back phone number.

Without it, they may not receive a response.

Office: 264 Chemical Engineering Student Center

Office Hours: M 5:15 - 6:30 PM, W 2:00 - 3:00 PM, F 3:00- 4:00 PM

- In addition, I have an open door policy, but I am not available 45 minutes before class time or mornings

Course Objectives:

- To teach the concepts of thermodynamic phase and chemical equilibria.
- To teach how to evaluate chemical potentials and fugacities in pure components and mixtures.
- To apply thermodynamic phase and chemical equilibrium theory to liquid-liquid, vapor-liquid, and solid-liquid systems.
- To effectively utilize the thermodynamic packages of software such as UniSim

Impact on Program Outcomes (ABET):

This course will significantly contribute in achieving B.S. program outcomes 1 (An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics) and 7 (An ability to acquire and apply new knowledge as needed, using appropriate learning strategies).

Course Topics:

1. Class introduction, notation, review of energy balances, introduction to UniSim.
2. Review of entropy balances.
3. Review of thermodynamic state variables and their differentials for closed and open systems.
4. Review of Maxwell relationships and expressions for the dependence of state variables on temperature, pressure, and volume. Departure functions
5. Review of equations of state and the principle of corresponding states
6. Criteria for equilibrium of single component systems
7. Fugacity
8. Phase transitions and the Antoine equation (and others)
9. UniSim modeling of phase transitions
10. Calculation of vapor pressure for cubic equation models and coding for it
11. Thermodynamic properties of small systems
12. Multicomponent systems and partial molar quantities
13. Experimental determination of partial molar enthalpy and volume. UniSim simulation
14. Criteria for equilibrium of multiple component systems without reactions

15. Criteria for equilibrium of multiple component systems with reactions
16. Gibbs phase rule
17. Ideal gas mixtures
18. Ideal mixtures and excess properties
19. Activity coefficients and calculations for phase equilibria
20. Activity coefficient models and creation of Txy and Pxy diagrams using Excel and regression
21. Creation of Txy and Pxy diagrams using UniSim
22. Chemical reaction equilibria
23. Reaction standard enthalpies and Gibbs free energies

Required Text:

Chemical, Biochemical, and Engineering Thermodynamics. By Stanley I. Sandler, edition used in ECH3101

Recommended Additional Text:

Essential Thermodynamics by Panagiotopoulos, Drios Press

Computer: Laptop computer running Windows and Excel is **required**

Attendance Policy:

Attendance is required. Excused absences must be consistent with university policies in the undergraduate catalog (<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>) and require appropriate documentation. Unexcused absences will significantly impact the class participation grade (see below).

Course Assessment:

- | | |
|---|-----|
| - Homework | 10% |
| - Class Participation | 10% |
| - Paper Exam 1*, <u>Wednesday February 19</u> , 7:00 or 8:00 PM | 30% |
| - Software Exam, <u>Wednesday April 22</u> , 7:00 or 8:00 PM | 20% |
| - Paper Exam 2*, <u>Monday April 27, 7:30 AM</u> | 30% |

*Reviews will be held before the two paper exams, the 1st Monday February 17 6:30 PM and the 2nd Friday April 24 2:00 PM (reading day)

Detailed Explanation of Grading:

1. For each student, Overall Points are calculated as follows:

$$\text{Overall Points} = 0.30 * \text{Paper Exam1Grade} + 0.20 * \text{Software Exam Grade} + 0.30 * \text{Paper Exam1Grade} + 0.10 * \text{Homework Grade} + 0.10 * \text{Class Participation Grade}$$

where

- Exam grades are 0-100
- HomeworkGrade = (Total homework points earned)/(maximum possible points) *100
- Class participation grade:
88 if student never misses class (without excuse) and never speaks. This number is multiplied by my estimate of the fraction of times the student was present in class. Then the grade is raised according to how frequently a student answers or asks questions. Corrections of my lecture errors are especially noted. However, if a student is engaged in obvious non-class activity (reading paper, having laptops on when lecture is not involving computer, etc), that student is considered absent. If you are using your laptops for taking class notes, you are encouraged to notify me of that (I may sometimes ask you to see your notes after a class).

2. The students are sorted in the order of decreasing overall points. Grades are then decided as follows:

Division between A and A- : Largest gap between two students with $90 \geq \text{overall points} > 85$

Division between A- and B+ : Largest gap between two students with $85 \geq \text{overall points} > 80$

Division between B+ and B : Largest gap between two students with $80 \geq \text{overall points} > 75$

Division between B and B- : Largest gap between two students with $70 \geq \text{overall points} > 65$

Division between B- and C+ : Largest gap between two students with $65 \geq \text{overall points} > 60$

Division between C+ and C : Largest gap between two students with $60 \geq \text{overall points} > 55$

Division between C and C- : overall points ≥ 50 (no gap here, 50 is C, 49.9 C-)

Division between C- and D+ : Largest gap between two students with $40 \geq \text{overall points} > 35$

Division between D+ and D : Largest gap between two students with $30 \geq \text{overall points} > 25$

Division between D and D- : Largest gap between two students with $5 \geq \text{overall points} \geq 0$

(never happens)

E: Given to students for honesty violations

The class participation grade is designed so that a student who attends class regularly will not have an A grade lowered even if s/he never speaks. It helps attending students with lower overall points.

Other:

Do not hesitate to ask questions both in class and outside class.

ADDITIONAL INFORMATION

Students Requiring Accommodations

Students with disabilities requesting accommodations should first register with the Disability Resource Center (352-392-8565, <https://www.dso.ufl.edu/drc>) by providing appropriate documentation. Once registered, students will receive an accommodation letter which must be presented to the instructor when requesting accommodation. Students with disabilities should follow this procedure as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Honor Code (<https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/>) specifies a number of behaviors that are in violation of this code and the possible sanctions. Furthermore, you are obligated to report any condition that facilitates academic misconduct to appropriate personnel. If you have any questions or concerns, please consult with the instructor of this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor (Me or Cynthia Sain)

- Robin Bielling, Director of Human Resources, 352-392-0903, rbielling@eng.ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Campus Resources:

Health and Wellness

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: <http://www.counseling.ufl.edu/cwc>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

Academic Resources

E-learning technical support, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu. <https://lss.at.ufl.edu/help.shtml>.

Career Resource Center, Reitz Union, 392-1601. Career assistance and counseling. <https://www.crc.ufl.edu/>.

Library Support, <http://cms.uflib.ufl.edu/ask>. Various ways to receive assistance with respect to using the libraries or finding resources.

Teaching Center, Broward Hall, 392-2010 or 392-6420. General study skills and tutoring. <https://teachingcenter.ufl.edu/>.
