

Advanced Mathematics for Chemical Engineering

ECH6847

Class Periods: MWF, period 7, 1:55 pm – 2:45 pm

Location: NEB 201

Academic Term: Fall 2021

Instructor:

Dmitry Kopelevich

Email: dkopelevich@che.ufl.edu

Office Phone Number: (352) 392-4422

Office Location: CHE 315

Office hours:

- Thursdays: 10:00 am – 11:00 am
- Fridays: 10:00 am – 11:00 am

Unless stated otherwise, the office hours will be held virtually via Zoom. Relevant Zoom links are provided in E-learning (Canvas).

If you would like to meet with the instructor outside of the regular office hours, please email to make an appointment.

Supervised Teaching Student:

Igin Ignatius

Email: igin.ignatius@ufl.edu

Please contact through the Canvas website

Office hours:

- Wednesdays: 10:40 am-11:30 am (Period 4)
- Thursdays: 8:30 am-9:20 am (Period 2)

Unless stated otherwise, the office hours will be held virtually via Zoom. Relevant Zoom links are provided in E-learning (Canvas).

Course Description

3 credit hours. Methods of linear systems, chemical engineering applications in finite and infinite dimensional spaces, concepts of stability, application to transport phenomena.

Course Pre-Requisites / Co-Requisites

None.

Course Objectives

Upon completion of this course, a student should be able to be able to formulate and solve advanced problems of relevance to chemical engineering that require knowledge and ability of the following mathematical subjects and methods:

- Solution of Ordinary Differential Equations (ODEs):
 - First-order linear systems.
 - Linear equations with variable coefficients.
 - Asymptotic analysis and perturbation methods.
 - Application of Laplace transform to solution of ODEs.
- Solution of Partial Differential Equations (PDEs):
 - Linear partial differential equations.
 - Separation of variables.
 - Application of Fourier and Laplace transforms to solution of PDEs.
 - Green's Functions.
- Vector Calculus:
 - Index notation.

- Vector and tensor algebra.
- Differential operators and integral theorems.
- Linear Algebra:
 - Linear spaces.
 - Linear operators and matrices.
 - Systems of linear algebraic equations.
 - Eigenvalue problems.
- Probability and Random Variables.
 - Probability distribution functions.
 - Central limit theorem.
 - Statistical analysis of experimental data.

Materials and Supply Fees

None.

Required Textbooks and Software

None

Recommended Materials

1. M. D. Graham and J. B. Rawlings, “*Modeling and Analysis Principles for Chemical and Biological Engineers*”, (2013); ISBN 978-0-9759377-1-6.
 - A copy of this book is placed on reserve in the Marston Science Library.
2. Varma and M. Morbidelli “*Mathematical Methods in Chemical Engineering*” (1997); ISBN 0195098218.
 - A copy of this book is placed on reserve in the Marston Science Library.
 - In addition, an electronic version of this book (ISBN 1628701595) is available on the UF library website.
3. G. Strang “*Introduction to Linear Algebra*” (2016); ISBN 0980232775.
 - This book is available in the Reference section of the Marston Science Library.
4. M. D. Greenberg “*Foundations of Applied Mathematics*” (1978); ISBN 0133296237.
 - A copy of this book is placed on reserve in the Marston Science Library.

Course Schedule

Topics covered in each lecture and instructor’s notes for the lectures will be posted on the course website.

Course Website (Canvas)

- To access the class E-learning (Canvas) website, go to elearning.ufl.edu
- Alternatively, the class website can be found by searching for “UF Elearning” on Google and following links.
- After logging in using your UF credentials, you should be able to identify our class website and navigate to it.
- The homepage of the course website will contain topics and dates of completed lectures, as well as links to lecture notes.
- Links to lecture recordings will be available after each class in the “Course Lecture Videos” tab of the website.
- Homework assignments and their solutions will be posted in the “Assignments” tab of the website.

Attendance Policy, Class Expectations, and Make-Up Policy

- Students are strongly encouraged to attend all lectures, although attendance is not required. It is student’s responsibility to obtain the information (e.g. notes, assignments, and announcements) that they have missed due to their absence.
- Exams and quizzes will be rescheduled only for those students who missed them due to an acceptable reason, such as illness, serious family emergencies, military obligation, religious holidays, and participation in official university activities. Excused absences must be consistent with university policies in the Graduate Catalog (<https://catalog.ufl.edu/graduate/regulations>) and require appropriate documentation. Additional information

can be found here: <https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/>. It is requested that whenever possible the student notifies the instructor about an expected absence before an exam.

- Students arriving late for a quiz/exam will be given only the balance of time remaining to complete their work unless an acceptable reason (see above) is provided.

Exams

- The final exam is scheduled to take place on December 15, 2021, 10:00 am - 12:00 pm.
- Dates of midterm exams will be announced in class and posted on the course Canvas page.
- Proctoring of assessments will be done using Honorlock. A guide is available at <https://warrington.ufl.edu/covid-19/information-for/for-students/honorlock-student-guide/>.
- You will take an exam using Honorlock, typing your final answer to each question into the computer. Then, you will need to scan and upload your detailed work to E-learning within a few minutes of the exam ending.
- A practice quiz will be posted so that you can confirm that your equipment works correctly and that you understand the procedure.
- Only one solution per problem should be turned in. If a student turns in two or more different solutions for the same problem, all of them will be graded but only the lowest of these grades will be counted towards the exam or quiz grade. The motivation for this policy is that the students should learn to identify correct solutions without outside help.

Homework Policy

- Homework solutions must be submitted prior to the beginning of the class on the due date. They can be submitted either as a hard copy in class or scanned and uploaded to E-learning.
- Late homework submissions will not be accepted.
- Homework solutions will be posted on the Canvas website after the due date.
- A randomly selected subset of problems will be graded on each homework assignment. Please note that you are responsible for checking your own work against the solutions, as not every homework may be graded.
- Grade for some of the homework problems may be based on having completed the assignment, not on whether the results are correct or incorrect.
- **A failing grade will be assigned to students whose cumulative homework grade is less than 50%.**

Format for Assignments (Exams and Homework)

- Write name, date, course number or title, and exam /homework number on top of the front page.
- Write page number on each page.
- Clearly indicate the problem number.
- Clearly identify solutions by boxing all final and intermediate answers.
- Present solutions that are neat and well thought-out to maximize your grade.
- **Include enough details to justify your solutions.**

Evaluation of Grades and Grading Policy

Assignment	Percentage of Final Grade
Miscellaneous (see below)	5%
Homework	10%
Midterm Exam #1	27.5%
Midterm Exam #2	27.5%
Final Exam	30%
Total	100%

Miscellaneous:

- 2.5% points for completing an example quiz. This will prepare you for using Honorlock, as will be required for the exams.
- 2.5% points will be added to your final grade for introducing yourself and sharing your Math background with the instructor. You must meet with the instructor during office hours within the first four weeks of the class to receive credit.

Grading Scale:

- These percentages will earn you a letter grade of *at least*

Percent	Grade	Grade Points
90.0 - 100	A	4.00
85.0 - 89.9	A-	3.67
80.0 - 84.9	B+	3.33
75.0 - 79.9	B	3.00
70.0 - 74.9	B-	2.67
65.0 - 69.9	C+	2.33
60.0 - 64.9	C	2.00
55.0 - 59.9	C-	1.67
50.0 - 54.9	D+	1.33
45.0 - 49.9	D	1.00
40.0 - 44.9	D-	0.67
0 - 39.9	E	0.00

- The instructor guarantees these grades if you earn the posted percentages.
- The instructor may decide to *lower* the thresholds for the grades listed, based upon a curve. The instructor may employ a curve only to lower these thresholds.
- More information on UF grading policy may be found at:
<http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#grades>

Students Requiring Accommodations

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting <https://disability.ufl.edu/students/get-started/>. It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

Course Evaluation

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and

respectful manner is available at <https://gatorevals.aa.ufl.edu/students/>. Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via <https://ufl.bluera.com/ufl/>. Summaries of course evaluation results are available to students at <https://gatorevals.aa.ufl.edu/public-results/>.

Online Course Recording

Our class sessions may be audio visually recorded for students in the class to refer back and for enrolled students who are unable to attend live. Students who participate via Zoom with their camera engaged or utilize a profile image are agreeing to have their video or image recorded. If you are unwilling to consent to have your profile or video image recorded, be sure to keep your camera off and do not use a profile image. Likewise, students who un-mute during class and participate orally are agreeing to have their voices recorded. If you are not willing to consent to have your voice recorded during class, you will need to keep your mute button activated and communicate exclusively using the “chat” feature, which allows students to type questions and comments live. The chat will not be recorded or shared. As in all courses, unauthorized recording and unauthorized sharing of recorded materials is prohibited.

In-Class Recording

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.

Cooperation Policy

- Students are free to consult among themselves on the approach taken to solve any **homework** problem. However, *copying* homework solutions is a violation of the Honor Code. In particular, showing other students a copy of the actual manuscript to be submitted as homework *is not allowed*. Acceptable consultation includes discussing which equations should be used for solving a problem, writing down relevant relationships, etc.
- No consultation among students is allowed during **exams**.

University Honesty Policy

UF students are bound by The Honor Pledge which states, “We, the members of the University of Florida community, pledge to hold ourselves and our peers to the highest standards of honor and integrity by abiding by the Honor Code. On all work submitted for credit by students at the University of Florida, the following pledge is either required or implied: “On my honor, I have neither given nor received unauthorized aid in doing this assignment.” The Conduct Code (<https://sccr.dso.ufl.edu/process/student-conduct-code/>) specifies a number of behaviors that are in violation

of this code and the possible sanctions. If you have any questions or concerns, please consult with the instructor or the Supervised Teaching Student in this class.

Commitment to a Safe and Inclusive Learning Environment

The Herbert Wertheim College of Engineering values broad diversity within our community and is committed to individual and group empowerment, inclusion, and the elimination of discrimination. It is expected that every person in this class will treat one another with dignity and respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and culture.

If you feel like your performance in class is being impacted by discrimination or harassment of any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Jennifer Nappo, Director of Human Resources, 352-392-0904, jpennacc@ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

Software Use

All faculty, staff, and students of the University are required and expected to obey the laws and legal agreements governing software use. Failure to do so can lead to monetary damages and/or criminal penalties for the individual violator. Because such violations are also against University policies and rules, disciplinary action will be taken as appropriate. We, the members of the University of Florida community, pledge to uphold ourselves and our peers to the highest standards of honesty and integrity.

Student Privacy

There are federal laws protecting your privacy with regards to grades earned in courses and on individual assignments. For more information, please see: <https://registrar.ufl.edu/ferpa.html>

Campus Resources:

Health and Wellness

U Matter, We Care:

Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

Counseling and Wellness Center: <https://counseling.ufl.edu>, and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

Sexual Discrimination, Harassment, Assault, or Violence

If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the **Office of Title IX Compliance**, located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

Sexual Assault Recovery Services (SARS)

Student Health Care Center, 392-1161.

University Police Department at 392-1111 (or 9-1-1 for emergencies), or <http://www.police.ufl.edu/>.

COVID-19

- You are expected to wear approved face coverings at all times during class and within buildings even if you are vaccinated.
- If you are sick, stay home and self-quarantine. Please visit the UF Health Screen, Test & Protect website about next steps, retake the questionnaire and schedule your test for no sooner than 24 hours after your symptoms began. Please call your primary care provider if you are ill and need immediate care or the UF Student Health Care Center at 352-392-1161 (or email covid@shcc.ufl.edu) to be evaluated for testing and to receive further instructions about returning to campus.
- If you are withheld from campus by the Department of Health through Screen, Test & Protect, you are not permitted to use any on campus facilities. Students attempting to attend campus activities when withheld from campus will be referred to the Dean of Students Office.
- UF Health Screen, Test & Protect offers guidance when you are sick, have been exposed to someone who has tested positive or have tested positive yourself. Visit the [UF Health Screen, Test & Protect website](#) for more information.
- Please continue to follow healthy habits, including best practices like frequent hand washing. Following these practices is our responsibility as Gators.

Academic Resources

E-learning technical support, 352-392-4357 (select option 2) or e-mail to Learning-support@ufl.edu.
