2. Formulate rate equations based on a sequence of elementary reactions
3. Evaluate rate equations based on experimental data
4. Apply material balances to size and analyze reactors
5. Apply energy balances to size and analyze reactors
6. Evaluate catalyst performance and recognize transport effects in heterogeneous catalysis

Attendance Policy, Class Expectations, and Make-Up Policy

This course is taught in person and online simultaneously. Attendance is not required and is not monitored.

This statement is required: Excused absences must be consistent with university policies in the Graduate Catalog (<http://gradcatalog.ufl.edu/content.php?catoid=10&navoid=2020#attendance>) and require appropriate documentation. Additional information can be found here:

<https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>

Quizzes

The quizzes will cover lecture material from the previous few class periods and will require 5-10 minutes to complete. Quizzes may be administered via honorlock through Canvas or on paper (depending on the state of affairs in a few weeks). Students are expected to abide by honorlock code of conduct. Quiz solutions will be posted on Canvas. Quizzes are closed book, closed notes. Use of cell phones is not allowed.

Homework grading policy

Homework problems will be graded on a 0-3 scale (0 = no effort, 1 = little effort, 2 = significant effort, 3 = complete). No credit will be given without work being shown. The lowest homework score/missing HWs will be dropped. HW due dates are on the schedule and should be turned in on Canvas before 11:59 PM. Late HW is docked 50% if it is a day late. HW *will not* be accepted beyond 24 hours after the due date (so 11:59 PM the following day). Students are encouraged to help each other on HW, but copying someone else's solution or allowing someone else to copy yours is cheating and a violation of academic honesty policy. Rule of thumb: Discuss the HW, but don't look at anyone else's work or show them your work. Homework solutions will be posted on canvas two days after the due date.
