Process Design
ECH 4644  Section DES8 (Class Number 25112)
Class Periods: MWF, Period 8 (3:00 – 3:50 PM)
Location: LEI 207

In addition, teams will have a 20-30 minute weekly workshop with the instructor or the TA
Academic Term: Fall 2023

Instructor: Spyros A. Svoronos
Phone: 352-392-9101 (O), 352-378-1342 (H)
E-mail: svoronos@ufl.edu
Office Hours: T 4:30-6:00 pm via Zoom
W 5:10-6:15 pm in my office and via Zoom
F 5:10-6:15 pm in my office and via Zoom

Zoom: https://ufl.zoom.us/j/6379945549 with passcode: 0

Mask policy: I am considered high risk, as I will be turning 70 in a year and have certain health issues. To protect myself I will be wearing a mask consistently. I believe that this precautionary measure is ample to safeguard my health. It's important for me to clarify that my decision to wear a mask should not be misconstrued as a solicitation for you to do the same. My choice to wear a mask should not influence your own decision regarding mask usage.

Teaching Assistant: Manan A. Rathod
Phone: 352-999-2411
E-mail: mananrathod@ufl.edu

Course Description
Preliminary design of convention chemical processes including process specifications, sitting and layout, equipment sizing, utility and manpower needs, safety and hazard analysis, environmental considerations and economic evaluation. Planning techniques for detailed engineering, construction and startup.

Course Pre-Requisites / Co-Requisites
Prerequisites: ECH 4403 and ECH 4504 and ECH 4604 and ECH 4824.

Course Objectives
- To instill an ability to analyze comprehensive situations and masses of data and facts in order to define key problems and variables.
- Learn systematic methodologies for designing components, units and processes that meet performance specifications.
- Learn how to search the literature for possible solutions to various aspects of the problems.
- Develop techniques for checking individual work for accuracy and learn to work together as part of a team to review and help each other avoid mistakes.
- Become power users of available computer aided engineering tools.
Materials and Supply Fees: None

Relation to Program Outcomes (ABET):

<table>
<thead>
<tr>
<th>Outcome</th>
<th>Coverage</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. An ability to identify, formulate, and solve complex engineering</td>
<td>High</td>
</tr>
<tr>
<td>problems by applying principles of engineering, science, and</td>
<td></td>
</tr>
<tr>
<td>mathematics</td>
<td></td>
</tr>
<tr>
<td>2. An ability to apply engineering design to produce solutions that</td>
<td>High</td>
</tr>
<tr>
<td>meet specified needs with consideration of public health, safety,</td>
<td></td>
</tr>
<tr>
<td>and welfare, as well as global, cultural, social, environmental,</td>
<td></td>
</tr>
<tr>
<td>and economic factors</td>
<td></td>
</tr>
<tr>
<td>3. An ability to communicate effectively with a range of audiences</td>
<td>High</td>
</tr>
<tr>
<td>4. An ability to recognize ethical and professional responsibilities</td>
<td>Medium</td>
</tr>
<tr>
<td>in engineering situations and make informed judgments, which must</td>
<td></td>
</tr>
<tr>
<td>consider the impact of engineering solutions in global, economic,</td>
<td></td>

Computer: Laptop computer running Windows, HYSYS and ASPEN Plus is required.

Course Topics (The timing is approximate as I slow down or accelerate according to my perception of how well the students comprehend what I am lecturing on).

- Overview of the design process (week 1)
  - Assessing the problem
  - Surveying literature
  - Database creation & property estimation
  - Safety & environmental impact
  - Preliminary process synthesis
• Concept screening & scoring matrices (week 2)
• Steady state simulation of reactors using HYSYS (week 3)
• Heuristics for process synthesis (week 4)
• Synthesis of separation trains (week 5)
• Steady state simulation of separation processes using HYSYS (weeks 6-7)
• Separation of azeotropes (week 8)
• HYSYS simulation of separation of azeotropes (week 9)
• Heat and power integration (week 10)
• Steady state simulation of entire plants (including integration) using HYSYS (weeks 11-12)
• Economic evaluation of designs (weeks 13-14)

Attendance Policy

Class attendance is required. Frequent absences will significantly impact the workshop and class attendance and participation grade which makes up 5% of your total grade (see below).

Requirements for class attendance, make-up exams, assignments, and other work in this course are consistent with university policies (see https://catalog.ufl.edu/UGRD/academic-regulations/attendance-policies/). I will work with students who have University excused absences to promote health and safety, and will provide reasonable exam accommodations and assignment extensions.

Course Assessment

<table>

<tr>
<td>Final design report</td>
<td>25 %****</td>
</tr>
</tbody>
</table>

* A video lesson will walk you through every homework assignment.

** The HYSYS exam will be held via HonorLock and Zoom Monday November 20 7:00 PM – 30 min after half the class finishes.

*** Students will receive an 88 if they attend all classes and workshops (aside from university excused absences) but do not contribute to class and workshop discussions, or ask questions, or correct lecture errors, something encouraged and appreciated. Then the grade is reduced according to the frequency of unexcused absences and raised according to how active a participant they are.
There will be 11 or 12 progress reports, each one associated with a weekly deliverable. The average of these and the final report will receive a team grade, but for each student this will be modified by the formula below:

Individual grade = team grade * 0.5 \{ \min[1 + (average of student's peer evaluation on a 1-5 scale excluding max and min)/(team average)], 2.2 \}. Extreme outliers will be ignored.

This essentially gives each student the average between the team grade and the team grade multiplied by the ratio of the student’s peer rating divided over the average of all the team’s members peer rating. The averages exclude the highest and lowest scores.

Once a numerical overall grade has been determined as explained above, the grades are decided as explained below:

Division between A and A- : The division between the lowest A and the highest A- occurs in students who averaged overall score 87.5 +/- 2.5. As it is undesirable to have a student with 87.49 obtain a different grade from a student with 87.51, instead of having a hard boundary at 87.5, the students are first sorted in decreasing order of overall points and the division occurs at the largest gap (difference). So, if there are five students with overall points 89.6, 88.4, 87.3, 85.2, and 85.1, 87.3 is assigned the lowest A and 85.2 the highest A-.

Divisions between lower grades are decided in the same manner, with one exception. A minimum of 50% overall points is required for a student to earn a C.

- Division between A- and B+: 82.5 +/- 2.5
- Division between B+ and B: 77.5 +/- 2.5
- Division between B and B-: 67.5 +/- 2.5
- Division between B- and C+: 62.5 +/- 2.5
- Division between C+ and C: 57.5 +/- 2.5

**Division between C and C-: 50 (no gap here, 50 is C, 49.9 C-)**

- Division between C- and D+: 37.5 +/- 2.5
- Division between D+ and D: 17.5 +/- 2.5
- Division between D and D-: 2.5 +/- 2.5 (never happens)

E: Pursued for students with honesty violations

The class participation grade is designed so that students who attend class regularly will not have an A grade lowered even if they never speak. It helps attending students with lower overall points.
**ADDITIONAL INFORMATION**

**Students Requiring Accommodations**

Students with disabilities who experience learning barriers and would like to request academic accommodations should connect with the disability Resource Center by visiting [https://disability.ufl.edu/students/get-started/](https://disability.ufl.edu/students/get-started/). It is important for students to share their accommodation letter with their instructor and discuss their access needs, as early as possible in the semester.

**Course Evaluation**

Students are expected to provide professional and respectful feedback on the quality of instruction in this course by completing course evaluations online via GatorEvals. Guidance on how to give feedback in a professional and respectful manner is available at [https://gatorevals.aa.ufl.edu/students/](https://gatorevals.aa.ufl.edu/students/). Students will be notified when the evaluation period opens, and can complete evaluations through the email they receive from GatorEvals, in their Canvas course menu under GatorEvals, or via [https://ufl.bluera.com/ufl/](https://ufl.bluera.com/ufl/). Summaries of course evaluation results are available to students at [https://gatorevals.aa.ufl.edu/public-results/](https://gatorevals.aa.ufl.edu/public-results/).

**In-Class Recording**

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student
who publishes a recording without written consent may be subject to a civil cause of action
instituted by a person injured by the publication and/or discipline under UF Regulation 4.040
Student Honor Code and Student Conduct Code.

**University Honesty Policy**

UF students are bound by The Honor Pledge which states, “We, the members of the University of
Florida community, pledge to hold ourselves and our peers to the highest standards of honor and
integrity by abiding by the Honor Code. On all work submitted for credit by students at the
University of Florida, the following pledge is either required or implied: “On my honor, I have
neither given nor received unauthorized aid in doing this assignment.” The Conduct Code
(https://sccr.dso.ufl.edu/process/student-conduct-code/) specifies a number of behaviors that are
in violation of this code and the possible sanctions. If you have any questions or concerns, please
consult with the instructor or TAs in this class.

**Commitment to a Safe and Inclusive Learning Environment**

The Herbert Wertheim College of Engineering values broad diversity within our community and
is committed to individual and group empowerment, inclusion, and the elimination of
discrimination. It is expected that every person in this class will treat one another with dignity and
respect regardless of gender, sexuality, disability, age, socioeconomic status, ethnicity, race, and
culture.

If you feel like your performance in class is being impacted by discrimination or harassment of
any kind, please contact your instructor or any of the following:

- Your academic advisor or Graduate Program Coordinator
- Jennifer Nappo, Director of Human Resources, 352-392-0904, jpennacc@ufl.edu
- Curtis Taylor, Associate Dean of Student Affairs, 352-392-2177, taylor@eng.ufl.edu
- Toshikazu Nishida, Associate Dean of Academic Affairs, 352-392-0943, nishida@eng.ufl.edu

**Software Use**

All faculty, staff, and students of the University are required and expected to obey the laws and
legal agreements governing software use. Failure to do so can lead to monetary damages and/or
criminal penalties for the individual violator. Because such violations are also against University
policies and rules, disciplinary action will be taken as appropriate. We, the members of the
University of Florida community, pledge to uphold ourselves and our peers to the highest standards
of honesty and integrity.

**Student Privacy**

There are federal laws protecting your privacy with regards to grades earned in courses and on
individual assignments. For more information, please see: https://registrar.ufl.edu/ferpa.html
**Campus Resources:**

**Health and Wellness**

**U Matter, We Care:**
Your well-being is important to the University of Florida. The U Matter, We Care initiative is committed to creating a culture of care on our campus by encouraging members of our community to look out for one another and to reach out for help if a member of our community is in need. If you or a friend is in distress, please contact umatter@ufl.edu so that the U Matter, We Care Team can reach out to the student in distress. A nighttime and weekend crisis counselor is available by phone at 352-392-1575. The U Matter, We Care Team can help connect students to the many other helping resources available including, but not limited to, Victim Advocates, Housing staff, and the Counseling and Wellness Center. Please remember that asking for help is a sign of strength. In case of emergency, call 9-1-1.

**Counseling and Wellness Center:** [https://counseling.ufl.edu](https://counseling.ufl.edu), and 392-1575; and the University Police Department: 392-1111 or 9-1-1 for emergencies.

**Sexual Discrimination, Harassment, Assault, or Violence**
If you or a friend has been subjected to sexual discrimination, sexual harassment, sexual assault, or violence contact the [Office of Title IX Compliance](https://counseling.ufl.edu), located at Yon Hall Room 427, 1908 Stadium Road, (352) 273-1094, title-ix@ufl.edu

**Sexual Assault Recovery Services (SARS)**
Student Health Care Center, 392-1161.

**University Police Department** at 392-1111 (or 9-1-1 for emergencies), or [http://www.police.ufl.edu/](http://www.police.ufl.edu/)
**Academic Resources**
